The train was the second section of No. 15, the first section of which is the local passenger which leaves this city about five o'clock in the evening. It was running at a moderate rate near Remington, which is about fifty miles south of Alexandria, when the car next the engine left the track. Eleven care piled up behind it and were jamm-d over it onto the engine and tender. As stated above, the firemen was killed outright and it is reported that others of the train orew were more or less burt. The train was in charge of Conductor Sherman and Engineer Bal-lot. Immediately after the accident a wrecking train was sent from Wash-logton by the Percentaging road. ington by the Pennsylvania road, and arrived at the scene of the accident without delay. During the evening trains on the Southern road were sent South over the Richmond, Fredericksburg and Potomsc. The track was cleared during the night and trains are now arriving and departing as usual.

THE RIVER .- Reports received from the upper Potomac last night were to the effect that the river was rising rapidly at certain points. At uoon yesterday at several places up stream the water had risen from eight to ten inches, and was reported going higher every bour. At Harpers Ferry yesterday afternoon the river was fifteen feet above the low-watermark. It was expected to reach twenty-two feet. No pected to reach twenty-two feet. No evidences of high water have appeared in this city, nor has any decided current set in although some scows and other vessels were brought here yesterday from Washington in order to be safe in case of an abnormal tide.

Officers of steamers which have an

rived here during the past twelve hours from the lower river say that the ice has about disappeared. The only ice encountered was off Glymont where some floating cakes were seen. Of course in some of the creeks an portioned of the floats there are some floes, but in the river proper so obstructions are en-countered.

KILLED AN ENGINEER.-Four men yesterday deliberately killed J. M. Rhes, a railroad engineer of Vicksburg, who was a passenger in a Pullman on the northbound Yazoo and Mississippi Valley train just out of Leland, Miss. Their names are Ashley Cocke, A. M. Thipps, Thomas Landerdale and a man named Blackman. In walking up the sisle they stumbled against Ruea's legs, which were extended out into the aisle as he slept. The quartet became angry, and ordered Ruea, who had awakened, out of the car. He remarked that in order to prevent trouble he would have to do as they told him, and started out of the car. It is claimed the men opened fire on him when he reached the door, killing him instantly. The four then terrorized every one else on the train, clearing the smoker of passengers. The quarter subsequently went to the engine and covering the engineer, compelled him to uncouple the engine and send it down the road. At Cleveland they were arrested without trouble and later placed in jail at Shelby. Cocke, who was the leader of the quartet, is alleged to have killed other men prior to yesterday's occurrence. He is charged with killing a negro named Shelby last Friday.
